(520) 374-3984**FLORENCE COPPER INC. APPROVED FOR TASEKO PORTFOLIO**  
***Curis Security Holders Approve Acquisition of Curis by Taseko***

**Florence, Ariz. (Nov. 10, 2014)** – Florence Copper Inc. (“Florence Copper”) announces that the security holders of Curis Resources Ltd. (“Curis”), the mineral resources and development company whose principal asset is the Florence Copper project, have passed a special resolution approving the previously announced transaction with Taseko Mines Limited (“Taseko”), pursuant to which Taseko will acquire all of the issued and outstanding Curis common shares by way of a statutory plan of arrangement.

At the special meeting held today in Vancouver, 99.68% of the votes cast by Curis shareholders, 99.72% of the votes cast by Curis security holders voting as a single class, and 99.52% of the votes cast by Curis shareholders excluding the votes attached to shares owned by Taseko and certain of its directors and officers, as required under applicable securities laws, were in favor of the transaction.

The transaction is subject to the terms and conditions of an arrangement agreement described in a management information circular dated Oct. 14, 2014. Under the terms of the agreement, Curis shareholders will receive 0.438 of a Taseko common share for each Curis common share held. Each outstanding option to acquire Curis common shares will be exchanged for Taseko shares based on an exchange formula set forth in the plan of arrangement implementing the transaction.

An application for final court approval is expected to be heard by the British Columbia Supreme Court on Nov. 14, 2014. Subject to final court approval being obtained and the satisfaction or waiver of all remaining closing conditions, the transaction is expected to close before the end of Nov. 2014.

“Florence Copper remains 100% committed to bringing the high paying jobs to Florence, Arizona that are needed to operate an environmentally responsible in-situ copper recovery plant,” said Dan Johnson, vice president and general manager of Florence Copper. “We are excited to be part of Taseko, a mining company with an excellent operating and environmental track record as we advance toward the PTF.”

For further details with respect to the voting results at the meeting, please see the Voting Results Report filed at [www.sedar.com](http://www.sedar.com).

-more-

**About Taseko**

Headquartered in Vancouver, Canada, Taseko is the owner (75%) and operator of the Gibraltar Mine, the second largest open pit copper-molybdenum mine in Canada. Taseko also owns the New Prosperity Project, one of the largest underdeveloped gold-copper deposits in the world. The Aley Niobium Project and Harmony Gold Project provide Taseko with a diverse project pipeline.

Both Taseko and Curis are affiliated with Hunter Dickinson Inc., a diversified global mining company with a 25-year history of mineral development success.

**About Curis and Florence Copper**

Curis and its 100% owned subsidiary, Florence Copper, are engaged in the final stages of permitting for the Phase 1 Production Test Facility for an in-situ copper recovery project in Florence, Arizona. The PTF includes a 24-well in-situ recovery well field and a state-of-the-art solvent extraction/electrowinning plant that will produce copper cathode. The PTF will assist in the demonstration of the science and safety of the in-situ process and provide an opportunity for the public to fully engage and understand this modern copper extraction technology. Concurrently, Florence Copper continues to advance engineering, testwork, environmental studies and permitting for Phase 2 commercial operations.
